“ When I was little, most w/ends were spent in Eastover visiting myg/parents and tending dad's garden. On the way I saw a house on a corner and it had a front door like out of a fairytale! It was rounded at the top and said to myself, "when I get my house, I'm gonna have a door just like that!" I wanted to know who lived there. Well in 2014, my husband and I rented an apartment on Cedar Terrace. Just a couple houses down for my house with the rounded door! My husband took our new puppy, Jasper for walks and one day a little lady stopped him and told him what a fine dog he has there. Days later, she came to our house and introduced herself and said she had a present for Jasper. It was a collar and leash to match. And she was a tiny thing, but we became fast friends. She was my walking buddy, we swapped books and told each other stories while sitting looking at all the beautiful azaleas she grew. Right about this time. Ironic... We loved Mrs. Jeffreys so and we will miss her as long as long is. Jasper, Monster and Kelly f. Gable-Nash
