“ *Nanny,
I think of you everyday in almost everything I do. I miss you so much, I wish Ryder would have been older and gotten to spend more time with you. You taught me so much growing up and even more once I grew up. I was just talking about spending every summer growing up in your backyard yesterday. You made me such a better person. I will always miss Sunday dinners, reading the newspaper, sneaking bites of whatever I could while i waited! You are everything I want for my own family. I love you so much and my life would not have been the same without you in it. <3 <3 <3*
